

Seeing beyond

Four Dimensional X-Ray Microscopy Workshop

03-05 October 2023

Organised by IIT Bombay & ZEISS

VMCC, Indian Institute of Technology Bombay, Powai, Mumbai, Maharashtra,
India - 400076

IIT Bombay in collaboration with Zeiss is organising a three day workshop on applications of Four Dimensional X-ray Microscopy facility at IIT Bombay. It has capabilities of visualizing 3D internal structures of products and samples. can be used for new product development, reverse engineering, phase identification, internal porosity measurement and quality improvement.

This workshop is a three-day event, with the first day being presentations of applications of FDXM followed by two days of live demonstration on your samples. The first day is in hybrid mode with both online and face-to-face presentations.

There is no registration fee to attend the workshop or for FDXM imaging of your sample
